We connect the drink, the story and the next step.

01

Create the drink

Our F&B team develops the recipe with you. Taste, ingredients, pricing and service are agreed before launch.

02

Tell your story

You provide the brand story and approved claims. Fourthspace shapes them into the house menu.

03

Invite a next step

An interested visitor follows the menu QR to your website or offer. Any enquiry is their choice.

The journey: discover the drink / read the story / choose to explore

The sponsor supplies the approved destination. A drink order or QR visit is activity, not a guaranteed lead or sale.

Something useful to take away.

One agreed bay for sponsor-supplied merchandise, offered voluntarily to visitors matching transparent audience criteria agreed with you.

You supply

Approved stock and replenishment.

We store & offer

An agreed bay and recorded distribution.

The guest chooses

No purchase or contact exchange required.

AI-generated merchandise-bay concept. Stock is supplied by the sponsor; distribution is not a retail-sales commitment.

Bring your audience into the house.
